UHW is our voice for negotiating great contracts and standing up for better patient care. But Andy Stern and SEIU are trying to take over our union. They want to negotiate underhanded deals with our employers and settle for lower standards for patients and workers. They've been holding sham hearings for months: first to tear our union apart, and now to oust the leaders we elected and install their own appointees. Andy Stern's final hearing on taking over our union is scheduled for Nov 12-14.

"Stern wanted a quick takeover with no one watching. But we made our voices heard and forced them to hold a second hearing. Now we're going to bring this fight to their front door!"

*Robert Hernandez, Clerk,
Kaiser Baldwin Park*
